Tip for aligning patches for sewing: When you have 2 patches to be sewn together and they are sloped at opposite 45° angles, they are correctly aligned when they meet at the ¼" seam line as shown at right.

1. Select the following pieces: T1A, T2B, T2BR, (2) T6D
Arrange as shown and sew into a row; finger-press seams.
Row should measure 12½" long.

2. Similarly, select the pieces for remaining 3 rows as shown; sew into rows.

3. Sew rows together, pressing seams toward top and bottom rows.
